- Education Reform in El-Marg District (2008)
- My School (Madrasty) (2007)
- A Step Towards Our Future (2010)

The main objective of the program is to empower young people with access to high quality educational opportunities to develop their academic, life and linguistic skills and activate their role in serving their local communities. This can create leadership cadres of young people from primary stages to university education stage and build the targeted students' capacities with the necessary twenty-first century skills and knowledge, serving Egypt's long term Sustainable Development Agenda.

Supporting youth to improve their livelihoods with comprehensive Entrepreneurship, Employability and Vocational training programs. Also, creating effective community models to foster innovation and creativity, as well as, guiding and directing young people to create entrepreneurial innovative solutions to solve standing developmental challenges. The program also works to build and provide youth capabilities with the necessary skills that improve their opportunities of joining the labor market with the aim of improving the employment conditions of youth in Egypt.

- ## Projects
- Employability program in the hospitality sector(2023-2024)

 - Mobaderoon Egypt Program (2012-2017)
 - Etijah Academy (2012-2014)

This program aims to empower and provide young people with the skills and knowledge necessary for effective community participation in bringing out positive change, and promoting individuals in solving various developmental challenges. As well as, in building the capacities of youth leaders who have the tools, skills and knowledge to solve challenges facing their local communities.

Empowering and supporting refugee, asylum-seeking and Egyptian women and girls. The program works through creating safe spaces for women and girls to help them integrate into society, providing them with psychosocial support and various life and professional skills, as well as raising awareness of local communities on reproductive health issues, especially about safe spaces in Sanad centers.

The program aims to raise awareness on population issues especially Reproductive Health (RH) and eliminate all forms of Gender Based Violence (GBV). The program supports the implementation of the National Population Strategy 2015-2030. The program has harnessed the power of unconventional creative arts including community theatre, song writing, music and sports for development to integrate them in outreaching and raising awareness of local communities and building the capacities of young people to work on these issues.
